TO WHOM IT MAY CONCERN

Active Rust Primer 662 SG - waterborne metal / rust primer - label ENVIRO-COAT 2000

TECO Maritime ASA, Oslo, being the world's largest voyage repair company, www.teco.no, has extensive experience with above product from refurbishing the ballast tanks of VLCC's FRONT HIGHNESS, FRONT LORD and FRONT LADY. These vessels are owned by shipowner Mr. John Frediksen, Frontline Ltd., www.frontline.bm, which is established as the world leader in the international seaborne transportation of crude oil.

Active Rust Primer 662 SG was applied as first coat in the ballast tanks, followed by a topcoat from **Ameron** - Amercoat 235. The coating system was applied some years back and has proved fully satisfying results. Undersigned was head of TECO Coating Services this period. The primer has definitively confirmed it lives up to its claims.

Sincerely
Petter Korslund
Key Account Manager
